

Coconut Tamarind Fish Curry

Serves 6 | Main | Prep 20 min | Cook 25 min

INGREDIENTS

900g Firm white fish fillets (e.g., cod or snapper), 3cm cubes / 400mL Full-fat coconut milk / 30g Tamarind paste / 150g Onion, finely diced / 20g Fresh ginger, grated / 15g Garlic, minced / 5g Turmeric powder / 3g Red chili powder / 5g Mustard seeds / 10 count Curry leaves, fresh / 30mL Neutral oil / 10g Salt / 100mL Water / 450g Uncooked basmati rice / 675mL Water for rice / 300g Baby spinach

METHOD

1. Cook the rice and measured rice water according to package directions. Heat oil in a large deep pan over medium-high heat. Add mustard seeds and wait for them to pop, then add curry leaves and onions.
2. Sauté onions for 7 minutes until golden, then stir in ginger, garlic, turmeric, and chili powder; cook for 1 minute until fragrant.
3. Whisk tamarind paste with water and add to the pan along with the coconut milk and salt. Bring to a gentle simmer.
4. Add fish pieces carefully into the sauce. Do not stir vigorously as this will break the fish.
5. Simmer covered for 8-10 minutes. Check that the fish reaches 145°F / 63°C and flakes easily with a fork.
6. Fold spinach into the curry for 2 minutes to wilt it, then remove from heat once fish reaches 145°F / 63°C.
7. Divide cooked rice into six bowls and spoon equal portions of fish, spinach and curry sauce over each.
8. Serve hot immediately. Refrigerate leftovers within 2 hours, use within 3 days, and reheat to 165°F / 74°C.

KITCHEN NOTE

Serve with steamed basmati rice. Developed for Real Family. Not kitchen-tested. Photo illustrates a similar dish.

ALLERGENS

Fish. Check every product label.

STORAGE & LEFTOVERS

Refrigerate in an airtight container for up to 3 days.

Wash produce, avoid cross-contamination, refrigerate leftovers promptly. Poultry: 165°F / 74°C; fish: 145°F / 63°C.
